ARRIVE ✓ CLEAN ✓ DRAINED ✓ DRY

Please help protect Lake George from Aquatic Invasive Species by following these guidelines:

## ✓ Clean

**Clean** and remove all visible plants, animals, fish, and mud from your boat, trailer, or other equipment and dispose of in a suitable trash container or on dry land *before leaving the launch*.

## ✓ Drain

**Drain** water from bilge, live wells, ballast tanks, and any other locations with water *before leaving the launch*.

## ✓ Dry

**Dry** your boat, trailer, and all equipment completely when moving between waters to kill small invasive species not easily seen.

*Drying times vary depending on the weather and the type of material. At least five days of drying time is generally recommended during the summer.*
